

WHA3.18 Smallpox

The Third World Health Assembly

1. REQUESTS the Expert Committee on Biological Standardization to consider the question of the establishment of a centre for the testing and standardization of smallpox vaccines, with particular reference to dried vaccine, and
2. RECOMMENDS that greater weight should be given to smallpox in the regular programme for 1952.

(Third report of the Committee on Programme, adopted at sixth plenary meeting, 19 May 1950) [A3/R/34]
